PROJECT EXPERIENCE

Senior Web Developer

REI Systems (Subcontractor for CAMEO SM at Karsun Solutions LLC), June 2015 - Present

- Performed as senior front-end web developer for GSA's Federal Acquisition Service (FAS) Sales Reporting Portal (SRP). I developed the first version (jQuery) of the user interface for FAS SRP from its RESTful API. I am currently working on migrating the application from jQuery into Angular 5.

- Performed as senior front-end web developer for GSA's Acquisition Gateway. I worked on enhancing the user interface by creating new reusable directives, enhancing templates and styling and making better user experience and accessible content.

Web Developer

REI Systems, January 2014 - June 2015

- **SBIR**
December 2014 - June 2015
Performed as Front-end web developer for sbir.gov. I helped development staff to implement a custom responsive Drupal theme which provides a user interface with an optimal viewing and interaction experience easy reading and navigation with a minimum of resizing, panning, and scrolling across a wide range of devices (from desktop computer monitors to mobile phones). Responsibilities included providing integration between Drupal and Twitter Bootstrap Front-end framework.
- **SBA**
July 2014 - December 2014
As a Web Developer, I developed a mobile template for sba.gov mobile site. Responsibilities included developing a template to be seen by the widest number of mobile devices and able to mimic a core mobile application.
- **DoD Deployment Health Clinical Center (Pdhealth.mil)**
March 2014 - July 2014
Performed as a Front-end web developer for the DoD Deployment Health Clinical Center (pdhealth.mil). I helped creating a UI by developing a Drupal custom theme. Responsibilities included providing a 508-compliant user interface for the website.
- **Prformance.gov**
January 2014 - March 2014
As Web Developer, I helped the development team to change the existing performance.gov Drupal theme to be a responsive theme.
- Technologies: Drupal, jQuery, jQuery Mobile, Git, HTML5, LESS, CSS3

Interactive Developer

Sage Communications, April 2012 - January 2014

- Performed as an interactive developer and developed several Drupal sites from A to Z such as DC Jazz Festival, Perthera, LaserLock, RealLiving At Home, Cannella & O'Neal, Public Justice, innovative solutions consortium, S&R Foundation, In The Pits Media and Deep Water Point.
- Was Responsible for developing and deploying HTML email campaigns.
- Was Responsible for editing videos, interviews for client projects.
- Technologies: Drupal, SVN, HTML5, CSS3, LESS.

Web Developer / Designer

Albagdadia Satellite Channel, November 2006 - January 2012

- Designed and developed the TV Station's very high traffic group of websites.
- Was responsible for CMS daily maintenance, technical backups management, and upgrades. Integrated VOD service and live broadcast services.
- Was responsible for the video editing of the VOD service and some of the TV shows.
- Brought websites from buried position to tops of search engines and created a more efficient web interface
- Producing a daily live news show on a wall screen by drawing a story board and guide the graphic team. Was responsible to provide training for editors to use the site's CMS.
- Technologies: Joomla CMS, SEO, Adobe Primeire, FinalCut Pro, Adobe Photoshop, VOD.

EDUCATION

B.S., Software and Information Technology Engineering from the University of Technology, Iraq
